

Convención sobre la conservación de las especies migratorias de animales silvestres

Secretaría administrada por el Programa de las Naciones Unidas para el Medio Ambiente

32ª reunión del Comité Permanente

Bonn, 8-9 de noviembre de 2007

CMS/StC32/13

Punto 9.b del orden del día

NUEVO FORMATO PARA LOS INFORMES NACIONALES DE LA CMS

Introducción

1. El objetivo principal de los informes nacionales consiste en proporcionar información sobre las medidas tomadas para aplicar la Convención y sobre la eficacia de las mismas. El Artículo VI de la Convención requiere que las Partes, que son estados del área de distribución para las especies migratorias que figuran en el Apéndice I o el Apéndice II, informen a la Conferencia de las Partes, por intermedio de la Secretaría, a más tardar seis meses antes de cada reunión ordinaria de la Conferencia, sobre las medidas que toman para poner en práctica las disposiciones de la Convención para estas especies. La Secretaría mantendrá al día la lista de los estados del área de distribución de las especies migratorias que figuran en los Apéndices I y II, utilizando la información que ha recibido de las Partes.

2. Por ende, la Resolución 8.24 de la COP 8 de la CMS sobre los “*Informes nacionales para la octava y la novena reunión de la Conferencia de las Partes*” destacó el papel importante de los informes nacionales como indicadores indispensables de la aplicación de la Convención, y efectuó una serie de recomendaciones sobre la disponibilidad, el proceso de presentación y el formato de los informes nacionales. La COP dio instrucciones a la Secretaría para llevar a cabo un análisis de los informes recibidos y para utilizar dicho análisis como base para el desarrollo de un nuevo formato que “*debería intentar, asimismo, por intermedio del Grupo de enlace para la diversidad biológica y en consulta con PNUMA-WCMC, llevar adelante la armonización de la presentación de informes con los de otros acuerdos internacionales sobre la diversidad biológica, mediante el desarrollo de módulos comunes de presentación de informes.*” En prosecución de ello, se ha llevado a cabo un análisis de los informes recibidos hasta el 31 de diciembre de 2005, en respuesta a la Resolución 8.24. Párrafo 2. Sus resultados pueden consultarse en http://www.cms.int/documents/national_reports.htm para fines de información y de toma de decisiones. Los progresos efectuados por la Secretaría en la aplicación de esta resolución se enumeran más abajo.

3. Existen dos procesos, que se llevan a cabo simultáneamente, sobre las modificaciones a los Informes Nacionales que la CMS requiere de las Partes que la integran:

- (i) CMS/ Familia on-line
- (ii) Armonización de los MEAs

Para economizar recursos, sólo se ha impreso un número limitado de ejemplares del presente documento.
Se ruega a los delegados que lleven sus propios ejemplares a las reuniones y eviten solicitar otros

Progresos

4. En la Resolución 8.11, la COP de la CMS invitó al Secretario Ejecutivo a que, en colaboración con el Grupo de enlace para la diversidad biológica (BLG) y con el PNUMA, llevase adelante las labores de la armonización de la presentación de informes, tanto dentro de la familia de acuerdos del PNUMA-CMS, como entre las convenciones idóneas. Dicho proyecto se propone mejorar la calidad de la información, que incluye los mapas de la distribución de las especies migratorias y de los ecosistemas; facilitar el acceso a la información disponible en la CMS y sus acuerdos; permitir que los especialistas se ocupen simultáneamente de tópicos diferentes, y reducir al mínimo las posibilidades de duplicación en el formato del cuestionario.

5. Con este fin, la CMS y el AEWA han propuesto la creación del primer sistema on-line establecido hasta la fecha, para la presentación de los informes nacionales (SONAR) para una familia de acuerdos ambientales multilaterales, a partir de 2008.

6. El PNUMA/CMS viene ocupándose de redactar el nuevo formato para los Informes nacionales (véase el Anexo 1), que puede utilizarse on-line. Ello ha llevado a efectuar varias alteraciones en la estructura y en el contenido del formato del informe. Otra fuente de alteraciones es el Plan estratégico de la CMS 2006-2011. Un ejemplo consiste en la incorporación de los indicadores mencionados en el Plan estratégico, tales como la identificación y el examen de las principales amenazas a las especies migratorias y los obstáculos a la migración, los aspectos relativos a la creación de capacidades y a la educación, etc. El PNUMA/CMS se ocupa al presente de la fase de coordinación con WCMC del proyecto de coordinación, para reducir al mínimo la presencia de superposiciones o duplicaciones. Básicamente, la presentación de los informes se mantendrá siempre concisa, centrada, racionalizada para evitar duplicaciones y seguirá orientada hacia la presentación de los resultados sobre la aplicación de las medidas de conservación.

Acción solicitada

Se solicita al Comité Permanente que :

- (a) Examine y apruebe el nuevo formato para los informes nacionales .
- (b) Promueva el nuevo formato on-line Familia/CMS y su utilización por las Partes en la preparación de la información para la novena Conferencia de las Partes en 2008.

Destacar la importancia del sistema -lde presentación de la información para aumentar la eficiencia y la armonización de la información suministrada por las .

Convention on the Conservation of Migratory Species of Wild Animals

National Report of Parties on the implementation of the Convention on the Conservation of Migratory Species of Wild Animals

At its sixth meeting, the Conference of the Parties welcomed the work of the United Nations Environment Programme on the harmonization of environmental reporting and encouraged its continuation. Meanwhile the sixth meeting of the Conference of the Parties recognized the need to ensure that this does not affect the ability of the Conference of the Parties to adjust national reporting procedures under the Convention in order to better meet the needs of the Parties.

Reporting format agreed by the Standing Committee at its 26th Meeting (Bonn, June 2003) for mandatory use by Parties, for reports submitted to the Eighth Meeting of the Conference of the Parties (COP8) (Nairobi, 2005).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005) COP 8.24, as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Please refer to the separate instructions on how to complete the report. Parties are encouraged to respond to all questions, since it cannot be assumed that the absence of a response indicates that no activities have taken place in the current reporting period. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.
